Indian equity markets declined for a third consecutive session, weighed down by renewed geopolitical tensions in the Gulf region and concerns over a potential interest rate hike by the U.S. Federal Reserve. The downturn was further exacerbated by a surge in Brent crude oil prices following U.S. strikes on Iranian tankers near Kharg Island.

PwC India has entered into an alliance with Claroty to enhance cybersecurity capabilities for critical infrastructure environments. The collaboration will focus on improving protection of operational technology and industrial control systems across sectors.

TCS has launched a fully automated facility in Pune designed to support AI-led manufacturing initiatives. The facility is expected to showcase advanced automation, digital engineering, and artificial intelligence-driven processes. The move underscores the company's focus on helping manufacturers improve efficiency, productivity, and innovation.

HDFC Bank has completed selling a majority of its stake in HDFC Credila, an education finance subsidiary, for Rs 9,553 crore to private equity firms BPEA EQT and ChrysCapital. The bank would no longer have HDFC Credila as a division.

Term of the Day

Risk Management

Definition: Risk management is a process by means of which risks are identified, assessed, monitored and finally mitigated for any process or organisation. It is a process which is considered very critical for proper functioning and maintenance of any organisation. Some of the risks which a company is generally exposed to are financial risk, environmental risk, theft risk besides others.

Explanation

Risk Management is a critical part of organization’s strategy and it is widely seen as an essential part of the business. Companies face various risks and it is strategically very important to make provisions for them and mitigate them wherever possible. Effective risk management practices of the organization makes it less vulnerable and better prepared for uncertainty. Some of the common methods of mitigating risks are transferring it to a third party (insurance), budgeting for the same, implementing stringent control measures and finally creating a backup plan. Let us take an example of a company X based in India.
